Sorry, just noticed a few things! Here's a brief list:

1. Could we put Triangle up on the same line as the other names for the main title?
2. Lower case t on 'the' in the first sentence.
3. In the last paragraph of the Background section, could we say that the PA will be released in September or is due in one year (instead of no later than July)?
4. Could we add an 's' to mine in the caption of the Darrow/Freezeout aerial map?

Thanks again!

Looks good! The month the citizen petition was submitted was August 2013. The final PA will be released in September 2014. Could you make those changes and then turn into a PDF? Then I'll run by Victor and Johanna and eventually we'll send up the chain.

Thanks!

Let me know if this works...I think I have the triangle mine right, but if it's not we can easily switch out photos. Let me know if you have other changes. Thanks

Hi Chris,

Yes, the aerial photo would work but we need to add the Triangle Mine in as well. I don't know if you could zoom out on that photo or add the Triangle Mine to the top (it's the mine with the dark pool next to it northwest of the other mines). Tell me if that's possible!

Thanks,

Dania Zinner

Dania, I inserted what looks to me an aerial view of the mine site, let me know if you don't think that picture will work or if you want to use another one.

Hi Chris,

Thank you for this fact sheet! Looks good to me. I sent you some maps and photos of Dewey Burdock. If it shows Darrow, Freezeout, or Triangle mine, we can use one of those photos. We'll have to ask Victor about the month of the citizen's request.

Thanks again,

Dania Zinner

Dania, attached is an initial draft of a fact sheet for the DFT mine. I didn't really get into the dewey burdock uic permit stuff and tried to limit it specifically to any PA actions EPA will take regarding the DFT mine. However, if you want I can try to provide more information on the dewey burdock uic if you think its needed.

There is a bit of space left at the end of the fact sheet in which I was hoping to insert an image or map of the site. Do you have one? The one map from the comm strat doesn't look or fit very well in that space.

Let me know any changes you have. Thanks

Oh great! Excellent. Yes, I'm not sure much will happen next week so wanted to give everyone a heads up. Ok, good to know.

Thanks again!

Chris and Valois-

Attached find the updated communication strategy with Victor's comments. Please send me your comments by Friday, July 18th if you have any. Chris will be doing a fact sheet based on this updated comm strat as well. If we could get have all of this ready by the end of July, I would much appreciate it! We are trying to get the PRP search data by then as well so we can set up ARA/RA briefings. Please tell me if any of those deadlines cause an issue for you.

Thank you,

Hi Victor,

Here it is! Tell me if you have time to review tomorrow (I won't be in though so maybe we can meet next week?). I'm thinking we should have Valois review as well. Then I'm guessing Johanna and Martin will want to review the updated comm. strat and fact sheet before we schedule a briefing with the RA? Also, we can discuss schedule next week if you see that I've missed anything. I'll check in with Sharon on PRP search progress...I think that's it for now!

Thanks,
